IMPORTANT SAFETY PRECAUTION

Please note the following precautions before usage. Failure to comply may be dangerous and damage your mobile electronics devices.

1. Power bank main unit contains an internal lithium ion battery. Upon initial use or after a prolonged storage period, fully charge it once. The unit's full performance is achieved only after 2 or 3 completed charge and discharge cycles.
2. Use only certified AC power adaptors and safety approved USB cables.
3. Power banks are not allowed in checked luggage on commercial airline flights. Handle with care and dispose of in accordance to local regulations. Carry-on only.
4. Do not immerse the power bank in water or expose to moisture or rain.

5. Do not drop, knock, or shake the power bank. Rough handling can break internal precision component or boards. Do not use if drooped, handled roughly or damaged in any way.

6. The power bank may feel warm during the charging process. It is normal for this product to generate heat while charging/discharging. Do not use if it feels too hot or shows signs of overheating.

7. Do not short-circuit the power bank which may cause damage to the unit.

8. Unauthorized changes or modification may void your right to use the product.

9. Do not charge the power bank while using the power bank to charge a device. Do not charge the power bank for more than 4-6 hours and do not leave unattended.
